

Smaller, lighter, and packed with features

Innovation, Design and Intelligence

Its sleek, sophisticated and lightweight design makes this system an attractive and valuable asset for your clinic.

The Latest Generation of I-Max Panoramic Systems is Here to Usher you into a New Era!

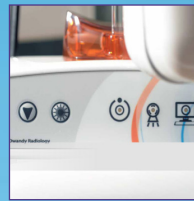

The panoramic X-Ray system is now indispensable for dentists keen to offer their patients the best possible care.

The future starts here! So choose the I-Max and let your clinic set the standard by using cutting-edge equipment that's ahead of its time.

Maximum Quality, in a Minimum of Space

As with an ordinary intra-oral X-Ray generator, it can be installed on a wall and linked to your network without the need for a dedicated PC.

Incorporating an exclusive « Easy to Install » system, the I-Max is delivered to your clinic in one easy-to-handle package, fully assembled, and only one technician is required to fit it on the wall.

Control panel software intuitive and very fast to perform.

Exceptional image quality

Perfection within your budget

Ahead of its time

Futuristic design coupled with ergonomics

Specs	
Power Supply	110-120 V, 220-240 V at 50/60Hz
Anode Voltage	60/70 kV
Anode Current	2/7 mA
Source to Image Distance	500mm
Total Weight (wall mounted version)	62kg
X-Ray Focus	0.5mm EN 60336
Connection	LAN, Ethernet (w/o dedicated computer)
Digital Sensor	CCD HD + optic fibre
CCD Resolution	10.4pl/mm
Exposure Time	From 2,44 to 14.4 s (adult/child Pan)
Enlargement	From 1.20 to 1.23
Option	Column-mounted version
Maximum Room Size	120 X 120 cm (47.2" X 47.2")
